

Affordable Care Act Preventative Medications Available At No Cost

Preventive maintenance medications along with a healthy lifestyle can help people avoid getting sick or developing certain conditions. The Patient Protection and Affordable Care Act (PPACA) makes certain preventive medications available to you at no cost (no copay, coinsurance or deductible).

The following list gives examples of preventive medications and items by category that may be available to you at no cost under the Patient Protection and Affordable Care Act (PPACA). Please see your plan materials for specific details about how these products and medications may be covered under your pharmacy benefit.

Helpful Tips for Using This List:

- This list does not guarantee coverage. Some items may be covered through your medical benefit.
- Coverage for any of the listed medications, including over-the-counter (OTC) items, requires a prescription from your doctor or health care provider. Other rules and limits may apply.
- This list will change from time to time throughout the year. Contact MaxorPlus for the most up-to-date information.
- If you have any questions about this list, call MaxorPlus at 1-888-820-4082.

KEY:

Brands= drugs in CAPITAL letters
Generics= drugs in lower case

Aspirin

For the primary prevention of cardiovascular disease and colorectal cancer in adults \geq 50 years old.

aspirin 81mg
aspirin 325mg

Aspirin

For women at high risk for preeclampsia

aspirin 81mg

Bowel Preparation

Adults aged 45 to 75 years old.

bisacodyl-peg 3350-pot chloride-sod bicarb-sod chloride
peg 3350-potassium chloride-sod bicarbonate-sod chloride
peg 3350-kcl-sod bicarb-sod chloride sodium sulfate

peg 3350-kcl-sod bicarb-nacl for soln 420gm
peg 3350-kcl-nacl-na sulfate-na ascorbate-c for soln 100gm
polyethylene glycol 3350
magnesium citrate soln
bisacodyl

Breast Cancer

Primary prevention in females who are at increased risk.

anastrozole
exemestane
raloxifene
tamoxifen
