Smoking Cessation Intervention (Counseling)	\$0	\$0	50% after Deductible
*Notes: (1) Any claim incurred through an Out-of-Network provider could result in balance billing and/or additional charges to the member. (2) Prior Authorization Required - failure to secure a Prior Authorization for certain services will result in no coverage/benefit paid under the Plan. To review a complete and up-to-date list of the services which require Prior Authorization, go to https://mysmarthealth.org/provider-resources/prior-authorization. (3) The Ascension network includes all Health Ministries of Ascension - including hospitals, clinics, affiliated providers and senior living facilities. (4) In some instances when services are unavailable from an Ascension Network provider, members may obtain services from a BlueChoice Options Network (IL) (i.e. National Network) provider and such services will be processed at the Ascension Network benefit level. Benefit Elevation is required in order to obtain such BlueChoice Options Network (IL) (i.e. National Network) benefits at the Ascension Network benefit level. For more information on the required Benefit Elevation process, go to www.mysmarthealth.org.			
Exclusions - See the SmartHealth Medical Summary Plan Description at www.mysmarthealth.org for complete information regarding exclusions.			
Prescription Drugs - Go to www.mysmarthealth.org/plan-coverage/pharmacy for details about your Health Ministry's prescription drug benefits.			
The U.S. Department of Health and Human Services, the Department of Labor, and the Internal Revenue Service have jointly released final regulations regarding women's preventative services under the Affordable Care Act ("ACA"). The ACA requires group health plans to provide coverage for "contraceptive services" as part of an array of women's preventative services that must be included in health plans without cost sharing to covered participants. The regulations contain an accommodation for eligible non-profit religious organizations that oppose providing contraceptive coverage. As a health ministry of the Catholic Church, Ascension Health Alliance d/b/a Ascension does not promote or condone contraceptive practices and objects to providing such coverage. Therefore, as the Plan Sponsor of the self-funded Ascension SmartHealth Medical Plan ("Plan"), which includes prescription drug benefits, Ascension qualifies as an eligible organization that is entitled to the accommodation. As a result, the Plan does not provide coverage for contraceptive benefits that are in conflict with our Catholic Identity and the Ethical and Religious Directives for Catholic Health Care Services. As part of the accommodation, third party administrators of the Plan are required to provide this coverage to covered members at no cost, independently of Ascension and consistent with the authority given them by the final regulations. You will receive information directly from those administrators about the coverage that may be available to you for those "preventative services."			
This is a brief summary of benefits, which is subject to change. To resolve any conflict between this summary and the Summary Plan Description, you should consult the Plan document, which will prevail over both this summary and the Summary Plan Description. For further details about Plan benefits, please contact Customer Service at the number shown on the back of your ID card, or view the official Summary Plan Description at www.mysmarthealth.org.
